## Specifications

|                  |                                               |
|------------------|-----------------------------------------------|
| Model            | 5310                                          |
| Also known as    | 3310                                          |
| Type             | Double Row<br>Angular Contact<br>Ball Bearing |
| Seal             | Open                                          |
| Bore d           | 50 mm                                         |
| Outer diameter D | 110 mm                                        |
| Width B          | 44.4 mm                                       |
| Dynamic load Cr  | 45 kN                                         |
| Static load C0r  | 45 kN                                         |
| Tolerance class  | ABEC-1 (P0)                                   |

## Notes

1. All dimensions in mm.
2. Tolerances per GB/T 307.1, class P0 (ABEC-1 equivalent), unless otherwise agreed.
3. Internal design (balls, raceways, seals) is shown schematically.

## DXF and 3D STEP files

Send the model and your application to [sales@nlhb.net](mailto:sales@nlhb.net). We reply with the CAD files.
